A recipe has no soul. You as the cook must bring soul to recipe – Thomas Killer

EATING IS NECESSITY, BUT COOKING IS AN ART

Learning is experience. Everything else is just information. Cooking with kids is not just about ingredients, recipes and cooking. It's harnessing imagination, empowerment and creativity. Master Chef Competition was conducted for the students of Fledglings in which they participated with full zeal and enthusiasm. Students prepared delicious food like bhelpuri. The objective was to make them learn about the nutritional value of different types of foods. The young chefs served the dishes in an artistic and aesthetic way and were applauded for their efforts. The children were judged by the following criteria – methodology, hygiene and overall presentation. It was an amazing ordeal that helped our children move one step further towards excellence.

The little chefs of CD Foundation of Education School enjoyed the

activity of bhelpuri making with different toppings on September 13, 2023. It is one of the most lovable recipes, especially among kids. The class was transformed into Master Chef Kitchen and the students got hands on experience of making dishes without fire. They followed the instructions given by the teacher and made it accordingly and were pleasantly surprised to see how easily such a tasty and yummy dish

could be made with the simple ingredients they had brought from their homes. The little chefs also serve their dishes to principal sir. Principal sir encourage the students by becoming the part of their activity. The little chefs took great care of hygiene and cleanliness in the classroom. Overall it was a crunchy and delicious treat which the children relished a lot.

OLYMPIAD EXAM

Never give up

If you fail never give up because F.A.I.L. means "First Attempt In Learning"

End is not the end, if fact E.N.D. means "Effort Never Dies"

If you get No as an answer, remember N.O. means "Next Opportunity"

So Let's be Positive.

Olympiad exams provide students a common platform where they are exposed to different ideas and students of similar educational level as they compete. This improves their learning in the process to be better at the subject of their choice.

Aim of Olympiads is to provide a unique competitive platform to identify the young geniuses and create a talent pool for the future. A rank in the Olympiad develops a sense of confidence among the students and their parents. This also helps parents identifying the talent of their child.
